

Dear Customer:

AccuFab, Inc. has been servicing the custom metal fabrication needs of the industrial, construction, and specialty fabrication sectors of the economy for more than twenty years. Our attention to detail and first class workmanship, as well as our ability to design/engineer our projects has allowed us to build an esteemed reputation that has become the cornerstone of quality in custom metal fabrication.

List of Services:

Industrial Machines:

- Custom Design
- Fabrication
- Modifications
- Guarding
- Servicing
- Acoustic Enclosures
- Equipment Repair
- Truck Racks

Stair & Rail Systems:

- Industrial, Commercial, Residential

Structural Steel:

- Fabrication & Erection of:
 - General Structural Steel
 - Canopies
 - Fire Escapes

Specialty:

- Architectural & Furniture-grade Metalwork

List of Capabilities:

Onsite:

Experienced, knowledgeable ironworkers available for a variety of project types including but not limited to:

- New Industrial, Commercial, and Residential Construction
- Renovations
- Materials Handling
- Shoring
- Overhead & Jib Crane Work
- Installation of Ornamental Ironwork

including:

- Stairs
- Rails
- Fire Escapes
- Security Screening
- Building Facades
- Custom Design Work
- Installation of AccuFab's fabricated items:
 - Machine Guarding
 - Acoustic Enclosures
 - Materials Moving Systems
 - Custom Designed & Built Machines

Field Equipment:

2 fully loaded portable welding rigs which house the following capabilities:

- MIG, TIG, ARC Welding of Mild & Stainless Steel, Carbon Steel, & Aluminum
- Oxygen & Acetylene Cutting & Brazing
- Carbon ARC Cutting & Gouging
- (Stake Bed) Delivery Truck with 9 Ton Trailer
- 4 Gasoline-powered Welder/Generators
- An array of power tools for cutting, drilling, grinding, & polishing metals
- Chain Falls, Winches, Slings, & Impact Wrenches for rigging applications

In the Shop:

- 175 Ton 10' CNC Press Brake
- MIG, TIG, ARC, & Pulse Welding
- Plasma Cutting
- Pipe Bending
- Complete Machining Capabilities
- Full Sheet Metal Shop
- Circle Cutting up to 5' Dia.
- Ironworker Multi-tool

* Our welders are ASW-D1.1 certified, we use AutoCAD 2000lt for detailing, we work with all types of steel, including stainless, as well as: aluminum, manganese, & brass.

Scope of Design/Build Service

AccuFab Inc.'s highly skilled designers & fabricators provide custom products for addressing unique situations. Whether you have already envisioned the product you need or have only identified your need, an AccuFab designer will work with you and/or your team to generate the right machine or item.

We detail our projects using AutoCad 2000Lt. We can also, upon request, provide you with conceptual drawings and/or models prior to fabrication, for your critical review.

In the shop, our welders work on custom-designed work tables to allow them to quickly adapt to your welding needs. In our "clean room" we fabricate precision machine parts as well as architectural-grade metalwork. For situations that demand on-site fabrication or modification, we have fully equipped rigs.

Design, fabrication, & installation/erection.

Range of Services

Accufab, Inc. has been designing, fabricating, and installing industrial equipment for more than 20 years. Our company of approximately 35 employees is organized to excel at developing custom products to address the safety, ergonomic, and efficiency concerns of our clients. We produce both one-off and production-run items. Our production experience includes but is not limited to the following:

- Equipment:
Guards, stands, bracing, patching, venting
- Materials Handling:
Power & gravity rollers, conveyors (including magnetic), fluid tanks, vacuum chambers, chutes (including mechanized), hoppers, & acoustic enclosures
- Machines:
Specialty machines geared toward addressing safety, ergonomics, & efficiency
- General:
Catwalks, platforms, stairs, ladders, ship's ladders, safety rail, structural fabrication & erection, truck racks

Machines made to your specifications

Range of Services

Over the last ten years we have also branched off into the fabrication and erection of structural steel. We have erected structural steel for high-end new construction, we have worked within the confines of historic renovation, and we have serviced the needs of our industrial clients. Our general construction experience includes but is not limited to the following:

- Ornamental structural steel
- Erection of structural steel in sensitive areas such as:
 - Industrial settings
 - Historic renovation
- Specialty items such as:
 - Custom-made steel/alum. doors
 - Catwalks
 - Stairs & ladders
 - Benches

Detailing, fabrication, & erection

Range of Services

AccuFab employees have traditionally availed themselves of opportunities to develop as artisans and not merely fabricators. The result is a staff with an uniquely high proportion of master fabricators. We have worked for local and national museums, educational institutions, civic institutions, commercial interests, and residential clients. Our experience designing, fabricating, & installing specialty pieces includes but is not limited to the following:

- Sculptural pieces
- Display fixtures
- Ornamental fixtures
- Custom furniture
- Custom motorcycle & automotive pieces & modifications

Institutional, Residential, & Commercial

Range of Services

Accufab, Inc. has been designing, fabricating, and installing fire escapes, stairs, & rails for more than 20 years. Our experience in this area includes but is not limited to the following:

- Commercial/industrial/residential fire stairs
- Custom stairs in any shape, size, or layout
- Industrial vertical & horizontal access, such as:
 - catwalks
 - ship's ladders
 - ladders
 - stairs & rail
- Stairs & rails with an architectural-grade finish
- Budget stairs & rails

from Industrial to Ornamental

Acoustic Enclosures

Design, Fabrication, Installation, & Servicing of:

- Custom units
- Production-run units
- Access panels & penetrations (custom fit) to each machine and/or application
- Fitted with an assortment of chutes, hoppers, electrical & mechanical fixtures

Misc. Industrial Equipment

Design/Engineering, Fabrication, Installation, & Service of:
• Custom & production-run equipment

Industrial

Design & Fabrication of:

- Custom machine guarding

Lifting & Dumping Machine
Design & Fabrication

Round Machine Guarding
Design & Fabrication

Misc. Industrial Machines

Design/Engineering, Fabrication & Installation of:

- Hydraulic dumping apparatus
- Parts-handling chute & drum
- Vibratory conveyor

Stainless Steel Shaker Chutes

Design & Fabrication

Pan Conveyor
Design & Fabrication

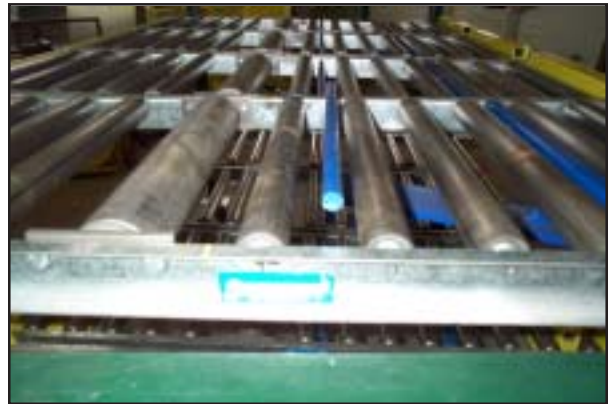

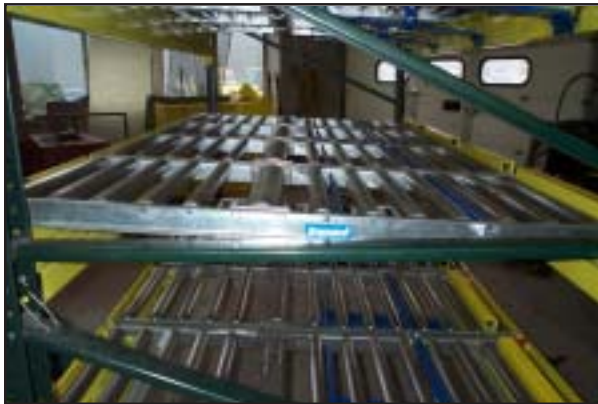

Roller Rack Storage
(Load & Unload from One Side Only)

Design & Fabrication

Roller Rack Storage
(Load & Unload from Both Sides)

Design & Fabrication

Pneumatic Tank Tilter
Design & Fabrication

Coil Stands

Design & Fabrication

Hand Operated Hydraulic Tank Tilter
with Pinchpoint Guarding

Design & Fabrication

Coil Unwinder
Design & Fabrication

Containment Vessel
Design & Fabrication

Parts Washer

Design, Fabrication, Installation, & Servicing of:

- Frame
- Mechanical equipment
- Electrical equipment
- Plumbing equipment

Hydraulic Die Press
Design and Fabrication

Commercial Building

Fabrication & Installation of Stairs and Railings

Fountain

Fabrication & Installation of Stainless Steel,
Copper and Glass Water Fountain
